Subject: microsoft settlement

To Whom It May Concern:

I am writing this to express my thoughts on the settlement of this case.

I truly hope that you decide to punish Microsoft in a manner that will make a difference. The current settlement will likely do nothing to change the way they abuse their monopoly position. At the very least, I hope that you make them abide by the SET STANDARDS. They should not be allowed to change the standards in any way. They should also be required to sell WINDOWS without the bundling of all their other products. Finally, I believe that they should have to open up Office file formats so there could be converters put in place for the competition. Thank you.

Sincerely, |
